impressions and/or time based ads placement to advertisers and purchase clicks and/or impressions from publishers.Unlimited number of adsClassic banners - gif,
jpg, png, swf formatsPlain text/HTML adsAds from templatesUnlimited number of zones (places where you display ads), these may be on the same server where the
ad system runs or on remote servers.Multiple ways to display ads - iframe, javascript, PHP includeAbility to load a new ad after a given number of secondsEach ad
may be used in 1-5 campaigns, each of these campaigns has its own configuration. For example you can select days (Sunday, Monday ...), time zones, range of dates
when an ad should be displayed, and moreCampaigns can be based on zones and also on keywords (you call one or more keywords on a page and the system selects
an ad to display by the given keywords)The option to target ads by countries, time, days in week, datesEach campaign has its own real-time statisticHistorical statistic
for days/months in the pastStatistic can contain country and URL of each impression and clickAdmin can select if clicks should open target URL's in a new or the
same window, this is editable for each zone separatelyAll public pages are editable in any html/text editor, also all error and info messages are editable. This feature
can be used to translate the system to another language.Visitors and users can choose from multiple styles of pages. You can create your own styles. It can be used to
create a multi-language system (multiple interfaces in different languages).An option to not display the same ad to the same person (IP address) twice in a defined
timeAbility to log URL's of each ad impression and clickAdmin password and username can be easily changed from the admin interfaceAdmin can prefer some ads -
such ads get a priorityAdmin can select time format to use on all pages, there is also the option to select between 12/24 hours formatIf your server time and local time
are different, the time may be automatically converted to the local timeUnlimited number of moderators with different rightsMultiple security options - you can ban
IP addresses that tries to enter admin or user pages with wrong login data, automatic reminder for admin to delete files which can cause a security riskAbility to
install the script more than once on the same domain/server by using one or multiple databasesEasy installation - you only have to upload files and enter values to a
few fields in a setup form (database data) and the script will do the restDatabase backup/restore functions, an option to optimize your tablesThe lowest prices on the
